

MEDIA ALERT

SAN LORENZO VALLEY WATER DISTRICT HOSTS FINAL COMMUNITY WORKSHOP TO PRIORITIZE CAPITAL IMPROVEMENT PROJECTS

*PUBLIC MEETING WILL DETERMINE ONE, FIVE, AND 10-YEAR PLANS FOR
MAINTENANCE & INFRASTRUCTURE IMPROVEMENTS*

WHEN & WHERE:

Thursday, Feb. 25, 2016

6-8 p.m.

San Lorenzo Valley Water District Operations Building boardroom

13057 Hwy. 9, Boulder Creek

WHAT & WHY:

The San Lorenzo Valley Water District will host its final community workshop to prioritize the capital improvement program (CIP) projects that will be undertaken in the next decade. This is the fourth and final of a series of community workshops SLVWD has hosted over the past nine months about the CIP projects.

The workshop will review ranked projects based on criteria that has been developed at earlier CIP community meetings to create a list of the most-important infrastructure work within the District. Projects include repair, replacement and improvement of current infrastructure.

Following this workshop, the District will work to determine how much will be spent annually on CIP projects. A rate study will follow to determine how the infrastructure maintenance needs will be funded.

From input received at the workshops, the District will create one, five and 10-year Capital Improvement Plans.

WHO:

The meeting is open to all community members and attendance is encouraged for public input.

ABOUT THE SAN LORENZO VALLEY WATER DISTRICT

The San Lorenzo Valley Water District is located in the mountains of northern Santa Cruz County. The district serves more than 7,500 metered connections. Established in 1941, the district supplies water to the communities of Boulder Creek, Brookdale, Ben Lomond, Zayante, Quail Hollow, Scotts Valley, Whispering Pines, Manana Woods and Felton.
